

## Scott County Addressing RFP – Sample Data

Sample data requested by firms responding to the Scott County Addressing RFP has been placed at the following location:

[http://www.scottcountyiowa.com/it/gis\\_data.php?folder=data/Temp/Addressing\\_RFP\\_Sample\\_Data](http://www.scottcountyiowa.com/it/gis_data.php?folder=data/Temp/Addressing_RFP_Sample_Data)

The data consists of the following compressed files:

### Aerials.ZIP

- Sample orthophotography for Bettendorf, Davenport and Scott County for both the 2005 and 2009 orthophoto flights.

### GIS.zip

- Sample parcel data for Bettendorf, Davenport, Scott County.
- Centerline files from the Iowa DOT (GIMS database), the US Census Bureau's TIGER data (2005 revision for Scott County) and the existing Scott County street centerline layer (which is a composite of Bettendorf, Davenport, and Scott County street centerline files).
- Sample address points from Davenport and Bettendorf.

### Tax Appraisal.ZIP

- Sample tax and appraisal (Scott County) address database. **Note that this data has been password protected. Please contact Ray Weiser, Scott County GIS Coordinator, (563) 328-4137 or [gis@scottcountyiowa.com](mailto:gis@scottcountyiowa.com) for access.**

All vector data is provided in ESRI pGDB v.9.3 format. Tax and Appraisal data is in MS Excel 2007 format.

Note that Scott County has a copy of the MSAG and ALI database but according to Intrado, is not able to share that information with the firms responding to the RFP until selection has been made and/or until we enter into contract with them for data extracts beyond the freely-provided ones.
