## Addendum 2- Request for Proposals Facilities Space Consulting and ADA Compliance Review Services

Please review the information that follows. This addresses all of the questions/ comments that have been received to date.

- Page 7, Item B #2 - Replace the reference to ADAAG, the correct document should be the 2010 ADA Standards for Accessibly Design by the Department of Justice.
- Is there an employee count by locations?  
This is something that will be determined through the meetings held with each department and the selected firm.
- Are the areas that have been recently completed such as the Sheriff's Office, Alternative Sentencing and County Attorney's Office requiring space planning?

All areas, even the recently completed areas require a review to see if the space still meets their needs (we know that the Sheriff and County Attorney have both voices some concerns).
