REQUEST FOR PROPOSALS – Consulting Services

Scott County Facility and Support Services Department

Administrative Center Roof Replacement

SCOTT COUNTY, IOWA

Project # FSS 13-0801

At the direction of the Scott County Board of Supervisors, the Scott County Facility and Support Services Department is requesting proposals from architectural and engineering firms. Scott County intends to contract with a qualified firm to provide architectural/engineering services for the replacement of the roof on the Scott County Administrative Center building. Firms may express interest and request consideration for said project by making submittal to the Scott County Purchasing Division as outlined herein.

BACKGROUND INFORMATION

The current roof installation was completed in January 1989. The roofing of this building is at end-of-life, nearing 25 years in age and requiring replacement. A portion of the current roof membrane was damaged in recent severe weather and temporary repairs have been completed.

ARCHITECTURAL SERVICES

The Scott County Board of Supervisors has appointed the Scott County Facility and Support Services Department as project manager for this project. As such, FSS intends to retain a qualified architectural firm to provide full service architectural and engineering services from initial assessment, design through construction completion. Services required include, but may not be limited to:

- 1) Pre-design - roof and related systems inspection and assessment – consultant shall inspect and assess all included areas to refine and validate the project scope of work and project projected budget.
- 2) Design Development / Construction Documents – develop detailed, constructable building construction documents. Provide all necessary design resources including architectural, systems engineering, site/utility engineering, code compliance, etc.
- 3) Site Access and Security – develop guidelines and construction strategies to allow for contractor access to the work areas while maintaining building integrity and facility security.
- 4) Cost estimation – working with the project management team, develop cost estimates appropriate at the following project milestones:
 - a. Pre-design
 - b. 100% of Construction Documents (pre-bid)
- 5) Bidding Services –listing of the project with plan rooms and listing services, conduct pre-bid meetings as necessary, answer prospective contractor questions and issue addenda as required, assist with evaluating bids and making approval recommendation.
- 6) Project Contract Administration – Prepare contract documents (AIA standard contracts), provide design intent interpretation, review and approve pay requests,

answer contractor questions, attend contractor progress meetings, manage change requests, requests for information and supplemental instructions, provide close-out services including punchlist preparation, coordination and ensurance of project documentation and final project acceptance.
