**Addendum 5**

**#19406 Digital Conversion and Indexing Services**

**October 23, 2018**

Several vendors took advantage of scheduling an on-site visit to review source media as identified in the RFP. All questions asked on-site were also asked through the question and answer process with only one new piece of information being shared.

In addition to the source media identified in the RFP, Scott County Recorder's Office does also have all years (1971 through 1988) of records available in Aperture Card format. This would be approximately 160,000 additional cards, for an approximate total of 310,000 cards that would need to be scanned and indexed. Some vendors did indicate that this would be their preferred option for scanning because the index values are listed on the card(s).
