December 31, 2007

Kindly find attached the FY08 Program Performance Budget Indicator Report for the second quarter ended December 31, 2007.

In addition to the attached report submitted for the Board's review the following additional comments about specific indicators from various programs are highlighted for their information:

Department/ Program	Indicator Reference	Page Number	Description
Administration General Administration	E.2	1	Target issue action steps completed are at 40%. Target issue action steps require more than one fiscal year to complete and this is the first year for some of the items.
Attorney Administration	Various	2	County Attorney's office is fully staffed at this time. Attorneys have switched from part-time to full-time. The Attorney's budget is 44.8% expended through the second quarter.
Attorney Criminal Administration	Various	3	All costs associated with productivity indicators are under projection. The more cases closed, the less cost associated with closing each case. Criminal prosecution is 45.2% expended through the second quarter.
Attorney Civil Division	Various	4	Demand and workload indicators are under projection except for Litigation Service intake which is 66%. Civil is 41.4% expended through the second quarter.
Auditor Elections	P.2	6	There were no special elections conducted during the period and therefore no cost can be assigned to this indicator.
Auditor Taxation	W.4	8	Local budgets to be certified by the Auditor's office are not due for submission until the third quarter.
Community Services Administration	D.5	9	The department budget is at 31% of the projected level. This is due to the fact that state billings, which are typically two months behind, have not been received. State bills are a large part of the department budget.
Community Services General Assistance	W.2	10	The number of clients referred to other resources is at 98% of the budget level. The staff continues to make these referrals before using county funds.
Facility & Support Serv Administration	W.4	18	Workload indicator (W.4) has shifted strongly toward capital projects due to the jail and courthouse projects.
Facility & Support Serv Maint Bldgs & Grounds	D.2	19	Demand indicator (D.2) is expected to increase from the new jail and entrance pavilion spaces.

PPB Indicator Memo

Department/ Program	Indicator Reference	Page Number	Description
Facility & Support Serv Maint Bldgs & Grounds	W.4	19	Man hours are expected to finish high as preparation work and fixtures, furniture and equipment installation for the jail entrance pavilion has driven this measure higher during the first and second quarters.
Facility & Support Serv Custodial Services	W.1	20	Man hours are expected to finish higher than projections, as extra hours of preparation work for the jail will become a factor during the next reporting period. This preparation work will push all workload measures higher for the year.
Health Public Health Safety	D.1	22	The number of jail inmate medical contacts is 18% higher than budgeted for this quarter based on yearly projections. The increase is a reflection of the increase in the jail inmate population. The Health Department works very hard to ensure that the jail of keeping at least 90% of the inmate medical care within the jail, to keep medical costs down.
Human Services Case Management	W.2	29	The number of HCBG-MR Waiver consumers served exceeded the budgeted level and the FY07 actual. This is due to the number of children with waiver slots turning 18 years old and moving to the adult service world.
Information Technology Administration	D.3	30	Capital projects administered by IT will finish the year well below budget due to completion dates on the GIS Parcel Conversion and the Phone System Upgrade being pushed into future fiscal years.
Information Technology Information Processing	E.1	31	During the first six months of the reporting period the department opened 973 work orders and closed 963 for a 99% completion rate.
Juvenile Court Services Juvenile Detention	D.1 D.2	32	Persons admitted are 16% below projections and have leveled out to the low 300's which has caused a revised projection. Average daily detention population remains lower than projected and was revised to 12 residents per day.
Juvenile Court Services Juvenile Detention	P.4	32	Cost per client per day (P.4) is up to \$195 from a projected \$180. This number has increased because of the lower number of persons admitted to the facility.
Non-Departmental Court Support Costs	D.1	33	New referrals are at 61% of the annual projection which increases all other indicators dependant on referrals. Six month actual numbers are high causing changes to the projections.
Non-Departmental Court Support Costs	N/A	33	Chad Wagner has resigned as Alternative Sentencing Coordinator.
Non-Departmental Risk Management	W.6	34	The number of training sessions conducted and the number of employees served is below budget but substantially higher than the previous fiscal year. The small numbers reported during FY07 are attributed to a lack of accurate records from the previous HR Director.
Planning & Development Code Enforcement	P.4	36	Building activity in rural Scott county and the several small cities remain strong. Even though, new house permits (D.1) and total permits issued (D.5 and D.6) are down slightly, the valuation of the construction covered by those permits (P.4) and the permit fees generated (P.2) was up.
Recorder Public Records	D.4	38	Effective with this renewal period, the renewals are being issued from the Iowa Department of Natural Resources Electronic Licensing System (ELSI). With the next renewal period due December 2008, the Recorder's office will no longer be processing recreational vehicle renewals. This action could have an impact on the revenue retained in the Recorder's office.
Recorder Vital Records	D.4	39	Passport application requests continue to rise. The projected demand indicator (D.4) for passport applications processed has been increased by 50% to reflect the increase in activity based upon last year's actual.
Secondary Roads Administration	D.2	40	During the second quarter of FY08 the PPB indicator information above shows the percent of budget used to date at 62.7%. This is high due to the weather conditions in December and higher than expected construction costs.

Department/ Program	Indicator Reference	Page Number	Description
Secondary Roads General Roadway Exp.	D.4	42	During the second quarter of FY08 the PPB indicator information above (D.4) shows 3 of the 5 new pieces of equipment received to date.
Sheriff Administration	D.1	44	During the second quarter of FY08 the PPB indicator information above shows that the Sheriff's office finished the quarter at 3.6 FTE's below budgeted figures.
Sheriff Patrol	D.1	45	During the second quarter of FY08 the PPB indicator information above shows that the number of calls for service/assistance (D.1) is expected to finish the year higher than budgeted figures.
Sheriff Corrections Division	P.3	46	Service contracts (housing prisoners out to county) finished at \$624,181 or 121.2% of the year's budget. This number may still rise due to the potential need of housing prisoners out of county during Phase II of the jail renovation project.
Treasurer Tax Collection	D.2	51	The dollar amount of property taxes certified for FY08 was \$8,152,912 higher than the previous year.
Center for Active Seniors Volunteer Services	W.2	60	The number of unduplicated volunteers is at 91% of the budgeted level and exceeded the FY07 actual. Volunteers are so vital to the success of CASI. The agency is working to improve their marketing techniques so as to attract more volunteers.
Center Alcohol/Drug Serv Outpatient Services	P.2	62	Cost per prevention service activities are higher than budgeted. This is partially due to the loss in Drug and Violence grant funding which then yields a smaller segment to allocate prevention overhead costs.
Center Alcohol/Drug Serv Jail-Based Assessment	W.1	64	During the first half of FY08 admission to the program was under budget due to transitioning the program from the Tremont Annex to the newly renovated jail.
Community Health Care Health Serv-Comm Serv	D.2	65	During the second quarter of FY08 community service encounters were running 18% higher than budget and on target with FY07 actuals.
Emergency Mgt Agency Emerg Preparedness		68	EMA worked with County Administration to disseminate information on the 28E Agreement for the Scott Emergency Communications Center (SECC) and held separate Emergency Management Commission meetings to get EMA backing for this project.
Handicapped Dev Center Employment Services	W.4	70	The number of persons receiving 100% county funding at the workshop has exceeded the budgeted level by eight. Consumers are being denied the Medicaid Service-PreVoc. This has resulted in the agency requesting 100% county funds for more consumers. There is a limited amount of funding in the HDC budget for this service. The funding is expected to be depleted by spring. This may result in some consumers losing their job at the workshop.
Handicapped Dev Center Employment Services	E.3	70	The amount of net sub-contract income is at 71% of the expected total. The agency works hard at maintaining sub-contract jobs for consumers.
Vera French Jail Diversion	W.1	86	The number of unduplicated case management clients served exceeded the budgeted level and the FY07 actual. This program continues to be in high demand and requires a great deal of work, time and energy from the two case managers.

The above indicator information has been highlighted by the budget analysts to help in the review of the attached document.

The liaison activities requested (D.2) are at 54% of the projected/budgeted level. The number of activities are affected by out of town, multiple day activities/training sessions. The Director continued to attend the DHS Transformation Workgroup and Steering Committee meetings during the second quarter. State bills are a large part of the department budget.</p> <p>The percent of time spent on program management (W.2) exceeded the projected and budgeted levels slightly. This is due to the Director working with office staff on the new mental health web-based system and running the required state reports. The Director also spent a great deal of time working with agencies on the FY09 budgets.</p>	<p>The Director continues to spend a significant amount of time on the management of the State Payment Program (SPP) cases. ANALYSIS:

During the second quarter of FY08 the PPB indicator information above shows: 1 more public presentation (D.2 & 3 & W.2) than last year. There were 3,400 less student contact hours (D.4 & W.3). Inner-city youth field day/youths (D.5 & W.6) had one more field day but 57 less youths participating. Overall attendance is down by 2,376 students (13,027 in 2008 / 15,403 in 2007).

We are seeing a trend of less field trips with smaller enrollments within the groups that do come out. Public programs were actually scheduled but cancelled due to no registrations or no-shows by the public. Student/school contact hours are dramatically different due to 4 less school field trips (15 in 2007 vs 11 in 2008 with no large school groups).

Inner-city/youth field trips were up, but once again, we have no control over enrolled students in those particular classes thus the lower youth number.

There are plans for attracting the public with new programs and site amenities - restoring amphitheater, recreation trails, water trail, fall outdoor primitive skills camp etc.

Building rents are up 49% (\$1,638) over same time as last year.

Expenses are down 24% (\$5,455) from same time as last year.

Wapsi's newsletter (W.4.) is now available on Conservation's webpage and e-mailed to people who signed up to have it sent to them electronically. This helps preserve our resources and conserves on paper and mailing costs. The newsletter is still mailed to people who request it sent regular mail.

ANALYSIS:				
<p>During the second quarter of FY08 the PPB indicator information above shows most indicators tracking at or near normal levels for this point in the fiscal year. The annual department budget (D.2) is lower than expected for this point due to some large purchases running into the second quarter. Additionally, some new service contracts have not been executed for the new jail systems due to warranty coverage. This situation will not extend in the next fiscal year. The workload has shifted strongly toward capital projects (W.4). This is due to the jail and courthouse projects. Expect that to moderate somewhat in the last two quarters.</p> <p>All other measures are unremarkable for this quarter. In coming periods the department will be working on the development of new effectiveness measures to better reflect outcomes and user satisfaction with FSS services.</p>

ANALYSIS:

During the second quarter of FY08 the PPB indicator information above shows the number of pieces of outgoing mail (D.2) continues to track higher than the expected budget. This may be due to seasonal mailings rather than a significant trend. The amount of mail that is presorted appears to be down significantly. This is a combination of the recent postal change, which limit the weights and sizes of what can be considered presort, and also the Auditor's absentee ballots which are unable to be run at the presort rate.

The indicators associated with imaging continue to trend low so far this year as we continue to experience a lag with documents prepped by other departments. This is due in part to employee turnover within these departments. Expect that to moderate as the supply of documents catches up.

The number of copies (W.3) made appears to have leveled out and it appears that we are

back on track for budgeted amounts. While we expect the numbers of "simple" jobs to decrease due to distribution of MFP machines throughout the county and the continued use of electronic means of distribution, these numbers might not accurately measure workload for this area as the number of complicated and complex jobs seems to be on the rise.

As Human Resources implemented new application software effective 12/01/07, we anticipate the number of WP documents/ HR application entries for other depts (W.4 & P.4) to decrease to almost nothing. This area has picked up many other duties and tasks to offset this downturn.

Remaining indicators appear to be at or near anticipated levels for this point in the fiscal year.

ANALYSIS:				
<p>During the second quarter of FY08 the PPB indicator information above shows: The number of communicable diseases reported (D.1) is considerably less than anticipated but in line with FY07 actuals. The number requiring investigation (W.1) is slightly higher than expected due to the increased number of cases of Chlamydia, Gonorrhea and Hepatitis B and C. The variation between the number of clients requesting clinic services (D.2) and the number of clients seen in clinics (W.2) has to do with new state guidelines for HIV Testing. All clients presenting for HIV Testing are first counseled and if specific protocols are not met they do not receive testing. There are also a certain amount of no shows for Immunization Clinic. All county employees except for one that were eligible for a health screening. (D.3) were appropriately screened.</p>

ANALYSIS:					
<p>During the second quarter of FY08 the PPB indicator information above shows:</p> <p>The number of environmental inspections required (D.1) and conducted (W.1) is on target for the year. The number of environmental re-inspections conducted (W.2) is considerably less than at this time last year. During the FY06 Fiscal year the department conducted an evaluation of the food service program which necessitated a change in how often we do re-inspections. That change showed a considerable increase in the number of re-inspections required. It is hoped that those changes will ultimately by way of education reflect less establishments having to be re-inspected.</p> <p>The Number of identified lead homes(D.3) is less than FY07 budget. With new requirements for homes being remediated (E.3) attaining 75% will be difficult.</p>

The GIS project (\$155k) accounts for 58% of the CIP projects managed budget. While this project is initiated and well underway, parcel conversion, the largest task of the project, while started late in FY07 will not expend the majority of project funds until FY09.</p>	<p>Also, the cost of a Phone System Upgrade (300k) accounting for 11% of the CIP projects managed for FY'08 has been pushed back to begin and be budgeted in FY11. The upgrade is in part driven by planned Court House 1st floor remodeling which has been pushed back to FY12 thus allowing this project to be rescheduled.</p>

ANALYSIS:

During the second quarter of FY08 the PPB indicator information above shows: Network and E-mail counts (D.1 and D.2) remain significantly up though County accounts showed a decline as the Exchange upgrade project has been completed. Non-county accounts have increased in part due to the Jail transition project which has resulted in new accounts for organizations such as CADS. The jail transition project is also reflected in the increase to LAN switches (D.5). Other hardware and software counts managed showed little change for the quarter.

Custom Developed Application (W.1) counts remained stable.

Workload remains high with approximately 3700 help desk contacts (W.3) generating 973 (W.4) work orders year-to-date.

Productivity remains high with 963 work orders completed year-to-date (P.5).

Effectiveness remains constant at 99% of work orders initiated year-to-date completed in that same time period (E.1).

5. Revenues collected	\$316,863	\$342,625	\$285,000	\$208,384
ANALYSIS:				
<p>During the second quarter of FY08 the PPB indicator information shows that (D.1) Persons admitted is 16% below projections. Persons admitted have leveled out to the low 300's and a revised projection of 325 would be more realistic at this time. (D.2) Average daily detention population remains lower than projected and will also be revised to 12 residents per day. (D.3) Days of out of county client care continues to be down for the second quarter and has been revised to 800 days. The lull in referrals which began in late November continued through the first half of December. It is doubtful if the Center can make up the deficit in out of county or in county referrals. As a result of this total days of client care is also down and has been revised to 4,000.</p>	<p>Workload indicator (W.3) Total visitors processed is under projection and has been revised to 3,250.</p> <p>All productivity indicators are in line with projections except for (P.4.) Cost per Client per Day. Even though the Center is only at 36% expenditures for the Second Quarterly period, Cost per client per day is inflated as there is an economy of scale when the Center functions at or near capacity.</p> <p>The Center reports that there were no escapes from detention (E.1) and (E.2) Special incidents by detainees requiring staff intervention continue to be down to their lowest levels in years. Special incidents are defined as any situation requiring out of the ordinary staff intervention ranging from simple first aid situations to physical assaults or escape attempts.</p>	<p>Changes that have impacted special incidents are the addition of a year round rec area as well as improvements in the relationship between staff and residents.</p> <p>(E.4) Average length of stay is 11 days compared to the budgeted 15. This indicator has been revised to 12 days projected.</p> <p>(E.5) Revenues Collected are low at \$208,384. Reimbursements for first time OMVUI offenders were down \$44,531 from projections. Grant funding from the Child Nutrition Program which is also allocated according to the number of residents that are served meals will also be lower. (D.3) Out of County Days, which is one of the Centers other sources of income are not expected to generate enough capital to make up this deficit. As a result (E.5) is now projected at \$285,000.</p>

ANALYSIS:				
<p>The Alternative Sentencing Program is supported under the Sheriff's Department and as provided by statute the County and 7th Judicial support the program. 7th Judicial provides partial funding and that funding has been received for the first two quarters, \$14,854.50.</p> <p>During the first two quarters of FY08 PPB indicator information shows that the majority of Demand and workload indicators have exceeded projections. (D.1) New referrals are at 61% of the annual projection which increases all other indicators dependant on referrals.</p> <p>Workload indicators are high through the second quarter with (W.3) hours completed and withdrawn at 117% of yearly projection. The Program Coordinator reports that judges have become more strict on clients serving community service hours and have been rescinding more sentences when the hours are not completed as sentenced. In addition</p>		<p>the Coordinator reports that he has initiated special projects requiring extra hours of clients and therefore completing their sentences earlier. Projections have been amended for second quarter results to properly reflect program activity. (P.1) monthly average active caseload is at 228 cases against a projection of 190.</p> <p>Effectiveness indicator (E.1) completed sentences as a percentage of sentences ordered is at 65% but (E.2) completed community service hours, which includes hours withdrawn, is at 108% of projection. 81,026.5 hours were ordered and 87,636 were completed and/or withdrawn.</p> <p>Other appropriations under 23B are grand jury expense and the Juvenile Justice Base Program. Revenue sources are court appointed fees, fines, refunds, and the Juvenile Justice County Base Program, offset by Juvenile Justice Hearing Expense.</p> <p>The alternative Sentencing Program does</p>		
		<p>not generate revenue.</p> <p>Also, the Program Coordinator has resigned and a new staff member will need to be hired.</p>

SERVICE AREA: County Environment **PROGRAM: Planning & Development Administration (25A)**
ACTIVITY: Environmental Quality/County Development **ORGANIZATION: Planning & Development**

PROGRAM MISSION: To provide professional planning and technical assistance to the Board of Supervisors, Planning & Zoning Commission and the Board of Adjustment in order to develop, review and adopt land use policies and regulations that guide and control the growth of Scott County by balancing the need to identify areas appropriate for development with the need to preserve productive farm land.

PROGRAM OBJECTIVES:

 2. To accomplish 100% of departmental objectives.
 3. To avoid any delays of P & Z Commission and Board of Adjustment applications due to incomplete submittals.

5. % of time spent serving on various boards and committees	26%	25%	25%	19%
6. % of time spent on building permit applications	37%	35%	35%	40%

ANALYSIS:

During the first half of FY08 379 building permits were issued. This is 50% of budget projections for the total year and 21 fewer than the first half of last year. This would appear to indicate that the building sector for rural Scott County and the seven small cities is still strong. The percentage of staff time spent on building permit applications (E.6) reflects that reviewing and issuing building permit applications occupies considerable staff time.

Board of Adjustment items are ahead of budget projections with 16 applications submitted for BOA review. Planning and Zoning Commission items are also higher than budget projections following the close of the first half of the year. The number of P & Z agenda items are also an indicator that development activity will likely remain steady through the fiscal year.

Due to the temporary moratorium on new applications that will be enacted in response to the adoption of the Comp Plan, the rest of the fiscal year will likely not see many additional items.

ANALYSIS:

During the first half of FY08 the total number of permits issued was 21 fewer than during the first half of the previous year. A total of 64 new house permits were issued which was 3 fewer than the first half last year. The total valuation of those permits was up when compared to the first half last year; an increase of 2% or \$321K of building valuation. This also resulted in a 1% increase in building permit fees.

When the first half figures from the current fiscal year are compared with the first half figures five years ago the total number of permits and new house permits issued are 10% and 50% greater, respectively. The valuation of the construction covered by those permits and the permit fees generated are 48% and 31% greater, respectively. When the first half figures from the current year are compared with the same two quarters ten years ago the total number of permits is 9%

lower. However, permit fees, the valuation of those permits and new house starts are 78%, 66% and 16% greater, respectively.

Inspection activity is also reflected in the number of inspections completed per day (P.1.), which was 6 and the number of inspections completed per permit issued (E.2.), which was 4.7. The total number of inspections completed was down 8% when compared with the same period last year. The percentage of cancelled or expired permits was 9% which was in line with budget projections.

ANALYSIS:				
<p>During the second quarter of FY08 the PPB indicator information above shows the real estate activity (D.1) is at 42.30% of the projected amount.</p> <p>The department has combined D.3 and D.4 conservation and recreation vehicles, registration, titles and liens. Effective with this renewal period, the renewals are being issued by the Iowa Department of Natural Resources Electronic Licensing System (ELSI). This is due to the DRN now processing ATV and snowmobile registrations and renewals, titles and liens. The Recorder's Office must still process all initial registrations, however, annual renewals can be processed at any electronic license vendor that issues hunting and fishing license. This action could have an impact on the revenue retained in the Recorder's office (D.3).</p>

<p>During the 2nd quarter of FY08 the PPB indicator information above (D.4) shows 3 of the 5 new pieces of equipment received to date. Units serviced (W.2) is at budget but units repaired (W.1) are low. We have been investigating this item for a year and it appears that the number of units repaired has indeed dropped. However, the costs of repairs is increasing. We have found some accounting issues which have inflated the cost per unit repaired. Shop expenses (W.5) are low as winter heating has not taken place which is also effecting item (E.5). Cost per unit for equipment supplies (P.3) are high again. Diesel fuel is already at 67% of budget, slightly better than last year. Effectiveness item (E.1) shows a high percentage due to the increase in costs of outside repairs.</p>

<p>During the 2nd quarter of FY08 the PPB indicator information above shows cost for Macadam (W.1) at 7% over budget. There are no contract bridges this year but we have two box culverts which are complete. Total cost of construction will probably end a little over budget due to higher than expected construction costs. Productivity indicator (P.4) is above budget due to increasing the amount of work. All other effectiveness items are on target.</p>

The number of traffic citations (W.2) and court appearances (W.1) are below budgeted figures, but are expected to finish at budget levels, due to Governor's Traffic Safety Bureau (GTSB) grant funding. The number of traffic accidents (E.2) is also below budget. This number is expected to increase with the winter months, where roads are ice and snow covered. The Patrol Division appropriations finished the quarter at 46.6% of budget for the year, with overtime finishing at 48.8%. The Patrol Division is short 2FTEs due to a retirement and one deputy not passing the Field Training Program. Two deputies will be hired in the 3rd quarter, but overtime is expected to increase due to the extensive training of two new deputies.

<p>During the second quarter of FY08 the PPB indicator information above shows that the number of 9-1-1 calls is projected to finish the year substantially higher than budgeted figures. The number of communications transactions (D.3) are expected to finished below budget for the year, and (W.1) number of EMD calls is expected to finish at or slightly above projections. Warrants entered (W.2) is expected to finish below budget and warrant validations (W.3) is expected to finish the year slightly higher than budgeted figures. Productivity indicator (P.1) finished the quarter below budgeted figures, due to the demand indicator (D.1) finishing much higher than anticipated. Support Services appropriations finished the quarter at 47.5% of budget with overtime appropriations finishing at 57.9% of budget. The communications center was short 1FTE during the 1st quarter and finished FY2007 short 2 FTE's. ANALYSIS:

During the second quarter of FY08 the PPB indicator information above shows that (D.1) process documents received, is expected to finish the year slightly below budgeted figures. This is a reflection of the decrease in Child Support Recovery papers received in the Civil Office. Child Support Recovery is trying to reduce costs by using certified mail instead of the services of a civil deputy. Demand indicator (D.2), number of investigations assigned, finished the quarter higher than budget. The number of investigations per officer (W.1) is anticipated to finish higher than anticipated as well. Mental commitments (W.2) seems to be lower than anticipated, but this number is expected to increase and finish the year at or above budgeted figures. Productivity indicators (P.1 and P.3) finished above expectations due to the lower than anticipated number of documents received, where (P.2) finished below expectations due to the higher number of investigations assigned. The Investigations appropriations budget finished at 52.8% of budget and the Civil Deputy appropriations budget finished at 51.0% of budget.

ANALYSIS:

<p>During the second quarter of FY08 the PPB indicator information above shows that the number of property tax and special assessment statements issued (D.1) was high because all of the annual statements were mailed during the first quarter. Special assessments from delinquent sewer bills, weed cutting, etc. will be mailed monthly during the remainder of the year but the number is comparatively quite small.</p> <p>The total number of tax statements and special assessment receipts processed (W.1) during the period is listed as not applicable because of the way the tax system issues receipt numbers. Currently only one receipt number is issued for batch transactions. This means that daily lock box files, bank lists, multiple parcel payments by the same taxpayer, etc. are shown and counted as only one transaction. A solution to this reporting shortcoming is being investigated.</p>	<p>Property taxes certified for collection (D.2) were nearly identical to the budget estimate that was made eight months prior to the actual certification. The dollar amount certified for FY08 was \$8,152,912 higher than the previous year.</p> <p>The number of tax sale certificates issued (D.3) was zero for the quarter due to lack of interest from investors. The adjourned tax sale scheduled for August was unattended due to very few desirable properties in delinquency.</p> <p>The annual tax sale is so successful that nearly all current taxes are paid by year-end, as the percent of taxes collected on the current year's levy (E.1) shows for FY07. The high percentage of taxes collected through the second quarter of this fiscal year is due to the timely processing of payments from tax processing companies through our internet payment provider and income tax planning by</p>	<p>taxpayers at the end of the calendar year.</p> <p>The dollar amount of interest and penalties retained by the County (E.2) is typically low during this reporting period. This is also due to the tax sale being held in June. As such, the majority of these revenues will be collected during the fourth quarter.</p> <p>Elderly tax credit applications (D.4) are available throughout the year but are not due to our office until June 1st. Generally these credits are not processed by the State (W.4) until the end of our fiscal year.</p> <p>Spending on this program through December 31st was at 44.1% of total appropriations.</p>

Currently this system does not provide a count of renewals processed.</p> <p>The total dollar amount of motor vehicle revenue retained by the County (E.1) was slightly below budget estimates at 47.6%. This is troubling as first quarter revenues are normally some of the highest of the year. This revenue source has shown steady growth since the 1990's, increasing by 4% per year on average, however during FY06 and FY07 MV revenue has actually dropped by more than \$3,000 and \$5,500 respectively.</p> <p>Spending on the Motor Vehicle program ended the quarter at 43.5% of budget.</p>

3. Percent total motor vehicle title & security int fees proc-General Store	13.81%	13.00%	13.00%	13.45%

ANALYSIS:

During the first quarter of FY08 the PPB indicator information above shows that the total dollar amount of property taxes received (D.1) at the General Store was high because the first quarter sees the highest volume of payments by taxpayers. This high level of tax payments collected was also reflected in the total dollar amount of property taxes processed by the window clerks per day (P.1). Even though actual collections during this period were more than 57% of the amount projected this situation is not abnormal. During past years a much smaller amount of tax payments have been processed at the General Store during the remainder of the year. It is expected that actual collections will be in line with the projected figure by the year-end review.

Collections of motor vehicle receipts were not as robust. The total collected amounts for vehicle plate fees (D.2) and title and security interest fees (D.3) increased slightly from the same quarter one year ago, although less than expected.

The Treasurer's satellite office not only performs most of the functions of the main office but also provides for the processing of voter registrations (D.4) for the County Auditor. In typical years most of the processing of voter registrations takes place during the second quarter.

The percent of total property taxes processed at the General Store (E.1), as compared to the main office, shows an increase from last years actual. This is a common occurrence during this reporting period because the first quarter is usually a high collection period at this location.

Spending for this program through September 30th was at 45.3% of total appropriations.

6. Treasurer's Office General fund investment revenue only	\$1,885,460	\$1,390,854	\$1,390,854	N/A
ANALYSIS:				
<p>During the second quarter of FY08 the PPB indicator information above shows that the number of miscellaneous receipts issued (W.1) during the period has increased significantly from the same period of fiscal year 2007. This indicator has declined in six of the last seven years due to programming improvements to our receipting system.</p> <p>The number of parking tickets issued (D.2) is dependent upon the time allotted for policing the parking areas by the staff of the Facilities & Support Services department. Once the remodeling of the SCAC building was completed a significant effort was made to monitor public parking areas to insure that these areas were not used by County employees. Since that time the number of tickets issued has declined sharply.</p> <p>The dollar value of principal and interest due on bonds (D.4) at quarter end reflects the first interest payment on the general obligation debt which fell due on December 1, 2007.</p> <p>The second interest payment and the principal payments fall due on June 1, 2008. The total amount due includes debt service payments for the Solid Waste Refunding Bond issue, the GIS Bond issue, and the Urban Renewal Bonds, the latter issued in conjunction with the City of Davenport with the proceeds to be used on the "River Renaissance on the Mississippi" project.</p> <p>Other debt payments made by this office includes interest and principal payments on the certificates of Participation issued for the construction of the County golf course and the Jail Facilities Revenue Bonds issued to construct additions and to renovate the existing County Jail.</p> <p>The dollar amount of money available for investment annually (D.6) is high because the six-month total includes the Treasurer's ending cash and investment balance from the previous year. Also included in this number is all collections from property taxes, use tax, motor vehicle fees, state credits, and miscellaneous receipts.</p> <p>The number of investment transactions processed (W.6) includes all intra-bank transfers between the Treasurer's various accounts, transfers of funds between depositories, ACH debits and credits, and the purchase of term investment securities. This number has been increasing due to the use of Internet property tax and motor vehicle payments and the resulting ACH transfer of funds.</p> <p>Investment revenue from the use of money and property (E.5) is high at 59.5% of budget. Investment yields had been increasing for a period of roughly 30 months but peaked late last fiscal year. Subsequent to the end of the quarter under review yields declined dramatically. The projected level of earnings for the year will be reviewed during the upcoming budget process.</p>

All cost categories (Medical, Dental, Lab and XRay) except Pharmacy have increased from budget, but overall, total costs are running lower than budget due to Pharmacy being the largest cost driver. Year to date costs are also coming in lower than last year's actuals as well, largely due to the drop in pharmacy costs. The decrease in pharmacy costs is due to CHC bringing more pharmaceuticals in house on the CHC formulary at a discounted rate, where in the past these same pharmaceuticals were purchased from an outside pharmacy.</p>

The number of individuals living in the community (E.5) is at 90% of the budgeted level. The percentage of eligible respite requests accommodated (E.6) is slightly below the budgeted level at 94%. Currently the agency has two openings for residential site services. The agency continues to be cost-effective by working to ensure all residential sites are served at full capacity. The HCBS-MR waiver waiting list has limited the agency's options in terms of possible residential program candidates.</p>

During the second quarter of FY08, the PPB indicator information above shows that the Employment Services program remains on target with the budget. The number of individuals on the waiting list from the outside (D.2) is at 52% percent of the budgeted level. Time on the waiting list (months) prior to starting services (D.4) continues to exceed both the budgeted level and FY07 actual. The projected level was increased to reflect the current experience. The number of days of Medicaid Service (W.2) is at 47% of the budgeted level. The number of persons with Medicaid funding (W.3) is at 95% of the budgeted level. The number of persons with 100% County Funding (W.4) exceeded both the budgeted level and the FY07 actual. This is a result of changes in interpretation concerning the eligibility criteria for Medicaid Pre-Vocational Services. The number of persons in Community Employment services (W.5) continues to exceed the budgeted level but was slightly below the FY07 actual. The cost per day per person for 100% County funded individuals (P.1) exceeded both the budgeted level and FY07 actual. ANALYSIS:

During the first half of FY08 the PPB are only report twice a year in the first and indicator information above shows that requests from trade shows (D.4) is the only demand indicator that is under budget projections. The Bureau will continue to focus efforts to have the Quad Cities host both youth and adult sporting events. Many of the recommendations of the recent destination audit is in the process of being implemented. One of those is to combine the professional into one office. The CVB Board will work to address the concerns of the City of Davenport over the consolidation of that office in a Moline location. The CVB is working with the Davenport Levee Commission to upgrade the first floor of Union Station into a first rate visitors information center.

The occupancy rates are slightly lower than budget projects but can be expected due to the time of year and the large amount of inclement weather. Hotel Motel Tax receipts

ANALYSIS:

During the first half of FY08 the PPB indicator information above shows that economic development activity continues to remain high. The QCDG continues to aggressively market the region and it continues to be the main entity responsible for regional economic development.

Sales activity involves much traveling to trade shows and on sales trips. The new hi-tech trade show booth is generating lots of interest.

Business Connection, the program to annual survey local businesses, was conducted in late November and early December. Calls on more than 150 local companies with assistance from city staffers and ED partners were completed and those results are being compiled. Since over half of new developments and expansions come from existing local business the survey is intended to generate more leads.
