

1 PREREQUISITES

Adoption by the Local Governing Body

Scott County, Iowa is the subgrantee for the FEMA Hazard Mitigation Grant Program (HMGP) agreement for planning through the Iowa Homeland Security and Emergency Management Division (IHSEMD). Scott County is, therefore, the lead jurisdiction in a multi-jurisdictional plan process for the county and its constituent participating municipalities, school districts, and community college. As such, Scott County has adopted this multi-jurisdiction local hazard mitigation plan process and updated document in accordance with FEMA standards. A copy of the signed resolution as adopted November 2, 2017 follows.

Plan Adoption

In addition to Scott County, fifteen incorporated municipalities, four community school districts, and one community college district have participated in the multi-jurisdiction local hazard mitigation planning process with Scott County in order to receive individual approval of the plan. A draft resolution was provided as a sample for municipalities as shown in Appendix I-1. Each jurisdiction has adopted the plan process and document as dated below. A copy of each signed resolution as adopted is included in Appendix I-2.

<u>Participating Jurisdiction</u>	<u>Date of Plan Adoption</u>
Scott County (includes unincorporated)	11/2/17
City of Bettendorf	11/7/17
City of Blue Grass	TBD
City of Buffalo	TBD
City of Davenport	11/21/17
City of Dixon	TBD
City of Donahue	11/6/17
City of Eldridge	TBD
City of LeClaire	TBD
City of Long Grove	TBD
City of Maysville	TBD
City of Panorama Park	TBD
City of Princeton	12/14/17
City of Riverdale	TBD
City of Walcott	TBD
Bettendorf Community School District	9/18/17
Davenport Community School District	TBD
North Scott Community School District	TBD
Pleasant Valley Community School District	TBD
Eastern Iowa Community College District (Scott County Campuses)	TBD

Participation

In addition to Scott County, incorporated municipalities within the county participated in the local hazard mitigation plan process as listed above except for the City of Durant. The corporate limits of the City of Durant crosses three counties, with Cedar County being the largest portion. With smaller portions in Muscatine and Scott Counties, the City of Durant was not included in the *Scott County Multi-Jurisdictional Hazard Mitigation Plan* as a participating jurisdiction. However, since the geography of the county-wide plan includes part of Durant, the city was contacted as part of the larger plan advisory group regarding information about the plan process. Similarly, the cities of McCausland and New Liberty were included in the plan advisory group as they chose not to participate in the full planning process.

The remaining participating jurisdictions took part in the planning process as more fully described in the “Plan Process” section. At the initial kick-off meeting held September 15, 2016, it was discussed that satisfactory participation in the plan update process consisted of the following: designate a primary contact, submit inventory and review of existing planning mechanisms, review and updated list of communities’ critical facilities, score identified hazards from jurisdiction perspective, provide input and review individual jurisdiction’s risk assessment, submit priority mitigation actions and their reviewed assessment, and review and comment on the draft plan. All of the above listed jurisdictions have met the necessary requirements to be considered a participating jurisdiction.

Each jurisdiction designated a primary contact and assigned staff to attend meetings as part of the core planning committee. The planning committee was responsible for providing oversight on research, reviewing document drafts, and approving the plan process and final document. Local jurisdictions responded to requests for data, provided information when conditions in an individual jurisdiction varied from the entire county-wide planning area, and took hazards goals and priorities to board and/or council meetings for public comment.
