BACKGROUND

The Scott County Juvenile Detention Center opened on December 1, 1980. Since opening, the center has served as a short term, secure placement for allegedly delinquent youth under the age of eighteen. Juveniles are referred for detainment only when there is probable cause to believe they have committed a serious criminal act. In most situations, this criminal activity would be classified as a felony or an aggravated misdemeanor. Status offenses and simple misdemeanors are not considered detainable offenses. The severity of the criminal charge is not the only criteria sufficient to require detainment. One or more of the following conditions also must be present in order for a youth to be detained:

- 1. The youth is "wanted" by another state for the commission of a criminal act.
- 2. The youth is on probation/parole and has violated the conditions set forth prior.
- 3. The youth has absconded from a training school, a detention center, or a residential treatment facility.
- 4. The youth has committed a serious delinquent act and is at risk of:
 - a. Absconding prior to court appearances
 - b. Harming themselves or others
 - c. Damaging property

Although the center is operated by Scott County, it receives referrals from several counties in Eastern Iowa and Western Illinois. At present, nine detention centers are operating in the State of Iowa—Linn County (Cedar Rapids), Polk County (Des Moines), Woodbury County (Sioux City), North Iowa (Waterloo), Northwest Iowa (Cherokee), Southwest Iowa (Council Bluffs), Scott County (Davenport), South Iowa (Fairfield), and Central Iowa (Eldora).

PROGRAM VISION

"Our vision is a community which supports and empowers juveniles by giving them a second chance to succeed."

PROGRAM MISSION

"Scott County Juvenile Detention and Diversion Programs strive to provide safe, secure detainment, when necessary, as well as a cutting-edge continuum of community-based programs, so youth will ultimately have the best chance to succeed."

PROGRAM PHILOSOPHY

Over the past few years, the philosophy of how Scott County provides detention and diversion programs to the community has evolved. For thirty-four years, from 1980 to 2014, Scott County provided detention and supervision services merely as a "building." However, with significant research showing that community based detention alternatives can be extremely effective in supervising and rehabilitating youth, the center needed to innovate and evolve. Center management made the decision to utilize staff resources to develop and implement community-based programs as an alternative to secure detainment. The two programs which were developed and implemented in the 2015 fiscal year were the "In-home detention" program, and the "Enhanced In-home detention" program. As Scott County is able to now provide a continuum of detention and diversion services, we provide effective options for the juvenile court system to provide the least intrusive and restrictive service necessary. By doing this, we believe the youth will be more appropriately served and thus, more likely to succeed.

In FY18, Scott County Juvenile Diversion Programs continued to expand to include the Youth Transition Decision Making program which helps youth and families form a transition plan for when they return home after long term placement. In FY19, the program expanded again by implementing a pre-adjudication diversion program focusing on the use of Restorative Community Conferencing. This program targets first time auto-theft offenders and is named: the Auto Theft Accountability Program. In FY20, after much success with the Restorative Community Conferences, Scott County developed a partnership with Davenport schools to implement Restorative Mediation in secondary schools to help mediate and prevent violence in schools. All Community-based programs data is contained in the FY22 Juvenile Diversion Programs Annual Report.

PROGRAM PHILOSOPHY - WHILE DETAINED

Building a strong relationship through positive interaction and engagement between youth and staff is an important behavior management tool utilized within Scott County Juvenile Detention. Youth Counselors provide crisis counseling, Aggression Replacement Therapy (A.R.T.), trauma informed yoga, living skills training, and supervised recreational activities to detained youth. Detention staff challenges youth to take responsibility for the criminal thinking patterns and decisions that brought them into placement. Youth Counselors help the residents explore areas of growth and change necessary to deter them from further delinquent activity. By focusing on the relationship with each young person in care and challenging their thinking, each staff feels they can make a difference in their thinking and attitude.

Development of rapport between staff and residents is a key to creating an environment conducive to positive change. The many positive interactions between staff and residents helps the Center effectively manage the behavior of otherwise obstinate youth. The involvement between staff and residents also helps reduce the frustration and anxiety felt by youth. Staff members view detention as an important component in this Juvenile Justice/Treatment System. Because this system strives to reduce juvenile crime by actively engaging youthful offenders at all points of contact, staff members are determined to seize every opportunity to positively impact the residents and create teachable moments.

Since the majority of the youth detained at the Center will be transferred to treatment programs, the Center's structure attempts to address the negative thinking and behavioral patterns that have disrupted past efforts to promote positive change. This approach allows for a rudimentary preparation for youth facing the structure found in treatment programs.

JUVENILE DETENTION - Positive Behavior Interventions and Supports (P.B.I.S.) - Behavior Management System

Center management has done considerable research on Positive Behavior Intervention and Supports (PBIS) as a system to manage behavior within the facility. PBIS is an **evidence-based** three-tiered framework for improving and integrating all of the data, systems, and practices affecting student outcomes every day. PBIS is an incentive-based behavior modification system which focuses on rewarding when a resident meets or exceeds behavior expectations as opposed to a deficit based system, which provides consequences when rules are broken. Ultimately, P.B.I.S. is a way to support everyone, especially residents with disabilities, to incentivize safe, responsible, and considerate behavior within the facility and teach positive behaviors for when youth return home.

During the course of FY22, Detention staff began working with Brenda Scheuermann, Ph.D. from Texas State University to implement P.B.I.S. within the Scott County Juvenile Detention Center. Dr. Scheuermann provided numerous trainings and support to center management and implementing P.B.I.S. with fidelity. Several tasks were completed for implementation of Tier 1 of P.B.I.S.

- Wrote and implemented the teaching matrix to teach residents desired behavior in all spaces of the facility and during all routines and activities.
- Removed the level system and deficit-based consequences for not meeting behavior expectations.
- Re-wrote the center handbook and simplified language, behavior expectations, and consequences for not meeting desired behaviors.
- Created the point sheet system where youth are provided feedback and awarded 0 to 3 points based on their performance in meeting desired behavior for each hour/activity of the day.
- Created an incentive menu for buying incentives with positive points earned including: extra phone calls, snacks, video game time, etc.).
- Staff trained in PBIS concepts and language as well as P.B.I.S. forms and documentation.
- The formation of the P.B.I.S. leadership team to oversee implementation, provide on-going reevaluation of system effectiveness, and provide overall leadership to the Juvenile Detention staff.

EDUCATIONAL SERVICES

Education is the most highly structured of the program components. This service is provided by the Mississippi Bend Area Education Agency. The Center's school is fully accredited and is facilitated by certified teachers. The AEA education team tests all youth in mathematics and reading to assess their level of ability upon intake. Educational and social histories are obtained to assist in the determination of an appropriate level of competency. After the initial assessments the teacher has three options:

- 1. If the youth is currently enrolled in a school system, the teacher will communicate with the appropriate person(s) to obtain current assignments. The youth will be expected to continue with regular class assignments as closely as possible.
- 2. In cases where the youth is not enrolled in a school system, the teacher assigns individual diagnostics and prescriptive instructional lessons which are consistent with a traditional school curriculum.
- 3. Youth who will not return to a traditional school environment will be assigned work to prepare them for the HiSET (formally known as General Education Diploma G.E.D.) exam. Once the resident has passed all the pre-tests, AEA teachers will contact the Eastern lowa Community College and a proctor will administer the HiSET exam within the center. Many youths have been able to earn their G.E.D.'s while residing at the center, since testing began in 2012.

REPORTING BEHAVIOR

The Center observes behavior and reports to juvenile court officers weekly and upon discharge. In addition to these reports, youth may be evaluated by the staff of the Genesis Psychology Associates at the request of the Juvenile Court. These evaluations are performed in cases where the behavior is somewhat atypical or where the court needs more input to determine an appropriate care plan.

RECREATION

The recreational component is a large piece of the staff-resident involvement. Staff members interact with the youth in a variety of activities. Many of the activities are intended to promote physical fitness. Some activities are intended to enhance creativity. Activities include: basketball, volleyball, cardio vascular exercise, and various other recreational activities. In addition to Center staff, the Center utilizes both practicum students and volunteers to interact with youth in various recreational activities.

PREA STANDARDS - IMPLEMENTATION AND REPORTING

In 2003, the Federal Government Passed the PREA (Prison Rape Elimination Act) which seeks to put an end to sexual abuse and harassment in confined settings. In 2012 the federal government published and distributed PREA standards for juvenile facilities which include "best practices" in regards to the prevention, detection, and response to sexual abuse and harassment. Over the course of Fiscal Year 2013 the center modified and implemented several policies and practices regarding sexual abuse/harassment including but not limited to: resident and staff reporting procedures, resident risk assessment and placement, resident education, response planning, treatment of alleged victims, treatment of alleged offenders, investigations, and staff training. The Scott County Juvenile Detention Center complies with all PREA standards for juvenile facilities were in effect as of August 1, 2013.

In FY22, the center had the following incidents of sexual harassment and abuse allegations.

Sexual abuse allegations: 0 Founded incidents of sexual abuse: 0 Confirmed incidents of sexual abuse: 0

Sexual harassment allegations: 0

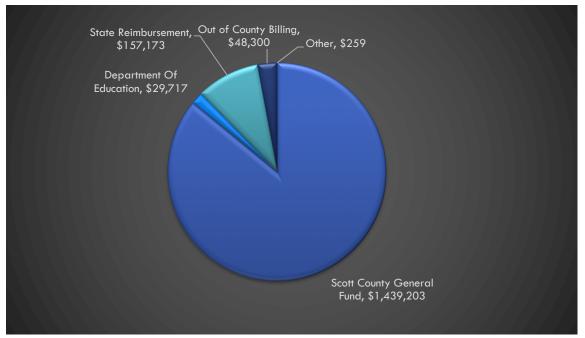

Founded incidents of sexual harassment: 0

Confirmed incidents of sexual harassment: 0

DETENTION CENTER EXPENDITURES AND REVENUES

Total expenditures for Fiscal Year 22 were \$1,674,652.

REVENUE

OUT OF COUNTY FUNDING

Youth from other jurisdictions may be placed in the Center; however, the committing jurisdiction must pay a per diem. Counties within Seventh Judicial District are charged \$150.00 per day to hold youth. Counties outside of this district must pay \$200.00. In FY22, the center received \$48,300 in funding for detaining juveniles from Counties outside of Scott County. This amount increased from a total of \$7,850 in FY21.

STATE OF IOWA REVENUE

Revenues received for the State of Iowa "Detention Home Fund" for Fiscal year 2022 was: \$157,173. This was a dramatic decrease from prior years. In fact, in FY21, the center received \$372,884 from the State of Iowa. This revenue is a dedicated funding stream, which is a pool of money resulting from first offender OWI fines and is reimbursed based on the Center's operating budget for the previous fiscal year. Each of Iowa's nine detention centers may be reimbursed a portion of their expenses by the state. Iowa Code states that Detention Centers be reimbursed at rates ranging from 10% to 50% of their operating budgets. However, in FY 22 this only made up about 9% of the Center's total operating budget. State officials reported the decrease was due to changes in legislation resulting in lower collection amounts of OWI fines.

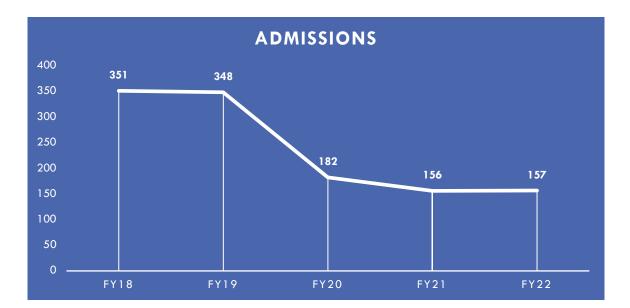

In 2012, the Center Director, in addition to 8 other juvenile detention centers in lowa, decided to contract with a lobbyist to work on behalf of the centers to ensure that this funding stream stays protected. The Center management team has decided to retain the lobbyist though Fiscal year 2023 and will seek reimbursement for significant decrease in funding between FY21 and FY22.

DEPARTMENT OF EDUCATION FUNDING

This funding is a combination of state and federal funding that are partial reimbursements for breakfast, lunch, and after-school snacks. The total amount of reimbursement received in FY22 was \$29,717. This amount increased significantly from prior years.

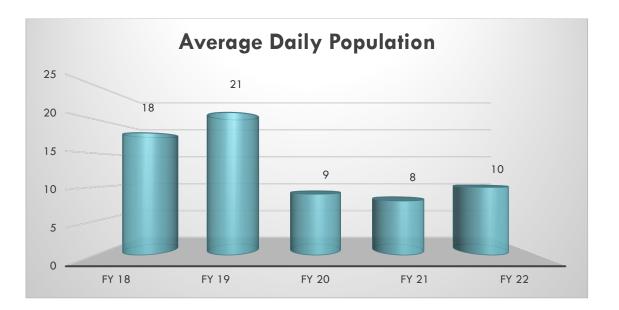

POPULATION DEMOGRAPHICS - ADMISSIONS

The Center processed 157 admissions during the 2021 fiscal year. This was only a slight increase from FY21 (156). However, as the graph below illustrates, the number of admissions has been lower than years past. This decrease in admissions can be somewhat attributed to the new diversion programs being admitted at Scott County and other non-profit providers. COVID-19 has also had an impact on the number of admissions as less people were out in the community.

AVERAGE DAILY POPULATION

Despite the number of admissions remaining virtually the same, the average daily population did increase in FY22. In FY22 the center averaged ten (10) residents per day and had a total of 3751 bed days. This was a slight increase from FY21 in which the average was around eight (8) youth per day. This can be attributed to longer lengths of stay.

AVERAGE LENGTH OF STAY

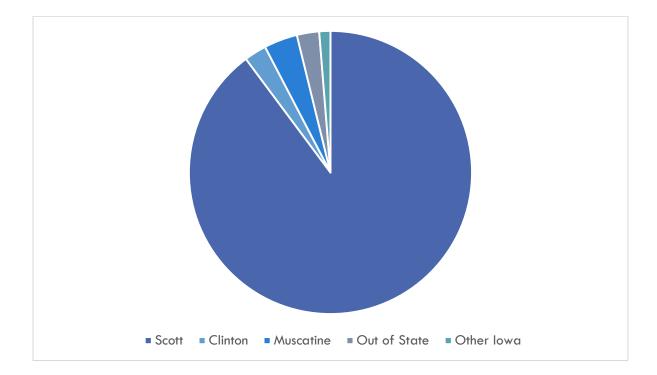

The average length of stay for a Scott County Juvenile Detention Center resident in FY22 was approximately 24 days. This was a 26% increase from FY21, in which the average length of stay was 19 days.

11

ADMISSIONS BY COUNTY

Of the 157 admissions in FY22, 141 were from Scott County (90%), 13 admissions came from nine different lowa counties (8%) and 4 were from Out of State (2%) as the graph below illustrates.

ADULT WAVIERS

Juveniles aged 16 or older who are charged with a forcible felony are automatically waived to adult court. In addition, juveniles aged 12 or above who have a preponderance of charges and have exhausted all services available through the juvenile justice system, may be waived to adult court. In FY21, the Scott County Juvenile Detention Center had a total of 350 bed days of adult wavier juveniles.

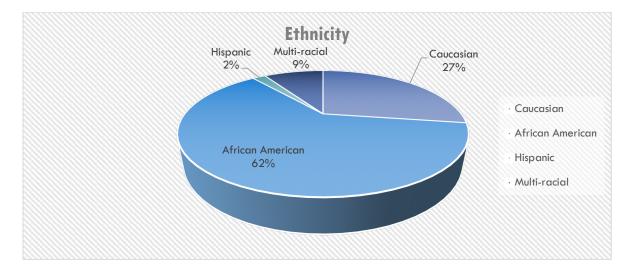

AVERAGE AGE AND GENDER

The average age of the youth detained at the Center this fiscal year was 15 years old. One hundred thirty-seven (137) of the admissions were males, which is 87% of the total population.

Twenty (20) of the admissions were females, which make up the remaining 13% of the total population.

ETHNIC BREAKDOWN

RACE	Admits	Percentage
Caucasian:	43	27%
African American:	97	62%
Hispanic:	3	2%
Asian/Pacific ls.:	0	0%
Multi- racial	14	9%
Other	0	0%

SPECIAL INCIDENTS

A special incident is a situation that deviates from normal Center routine (i.e., property destruction, acts of physical aggression, injuries, etc.). In FY22 the Center had 83 special incidents. Of the 83 incidents, 25 incidents required staff physical intervention.

SHORT TERM PLACEMENTS

In most cases of short-term placements, the Center holds a youth until transportation can be arranged to place the youth in a state institution. During the 2020 Fiscal Year, no youth was held under this status.

13

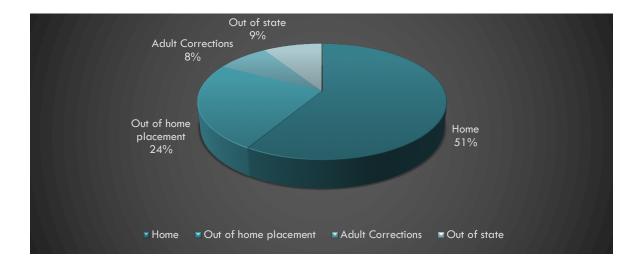

DISPOSITION OF CASES

The following list represents the placements of residents directly after they had been released:.

• Home: Residents who have been released to Home/ Home with Services, tracking and monitoring, In Home Detention and Independent Living have been returned to the community with varying degrees of supportive structure.

• Adult corrections: Residents whose crimes were sufficiently serious, or their age was advanced to such a degree that a Waiver Proceeding was warranted, and they were waived to adult court.

• Out of home placement: The remainder of cases represents residents who were placed in other detention centers, residential treatment facilities, state training school, shelters or situations in which charges have been completely dropped. In a vast majority of these cases, treatment and/or services were provided in an attempt to decrease the chances of future law or probation violations.

SUMMARY OF CRIMINAL CODE

The majority of allegations against detained youth involve felonious acts. Many youths are admitted for multiple allegations of criminal conduct. The youth detained at the Center are detained for involvement in a range of criminal conduct. The 157 criminal conduct offenses are listed below by frequency:
